PROFESSIONAL SUMMARY

Third-year B.E. Computer Science (Cybersecurity) student with hands-on experience in full-stack development, web application security, and AI/ML. Built REST-based applications using Spring Boot, React, and Firebase, and gained practical exposure to penetration testing, vulnerability assessment, network security, and incident analysis. Published cybersecurity author under the ISEA initiative of MeitY, Government of India, with hackathon, CTF, and research achievements.

EDUCATION

Sri Krishna College of Engineering and Technology (SKCET), Coimbatore Aug 2024 – Aug 2028 (Expected)
B.E. Computer Science and Engineering (Cybersecurity) *CGPA: 8.4/10*

Relevant Coursework: Data Structures, Operating Systems, Computer Networks, Cybersecurity Fundamentals, Database Management Systems

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, SQL, JavaScript
Web & Frameworks: React, Spring Boot, HTML5, CSS3, REST APIs
Databases: MySQL, Firebase
Cybersecurity: Web Application Security, Penetration Testing, Vulnerability Assessment, Network Security, OWASP, Secure Coding, Incident Analysis, Threat Analysis
Security Tools: Burp Suite, Nmap, Wireshark, OWASP ZAP, Kali Linux
Developer Tools: Git, GitHub, VS Code, Postman

EXPERIENCE

Backend Developer Intern & Security Advisor (Backend Team Lead) Aug 2026 – Present
NimBasket Private Limited, Tiruvannamalai – Hyperlocal Delivery Platform

- Lead the backend team and develop backend systems and database design for a hyperlocal delivery platform.
- Provide security guidance on the platform as Security Advisor, applying secure coding and credential-handling practices.
- Maintain code and documentation in company-managed repositories and workspaces, following confidentiality and access-control policies.

Frontend Developer Intern May 2026
Zop Technologies, Tiruvannamalai & Kodaikanal

- Designed and deployed a production website for Annai Educational Trust using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented server-side functionality and database integration for dynamic content management.
- Managed the full lifecycle from local development to production deployment and web server configuration.

Application Developer Intern Jan 2026 – Apr 2026
Infosys Springboard Internship 6.0

- Developed web applications using React, JavaScript, and REST APIs with component-based architecture in a structured industry internship.
- Applied frontend engineering practices including reusable components, API integration, state handling, form validation, and responsive UI design.

Deloitte Cybersecurity Job Simulation (Forage) Jun 2025
Virtual Experience Program – Simulated Incident Investigation

- Analyzed simulated web server logs to identify anomalies, suspicious activity, and potential attack patterns.
- Practiced security event analysis, incident investigation, and structured security documentation.

PROJECTS

ThinkMate AI – Cognitive Overload Relief Assistant Jun 2026
Spring Boot, PostgreSQL, Gemini 2.5 Flash | USAII Global Hackathon 2026 (Productivity Track)

- Engineered the Spring Boot backend for AI orchestration, task classification, REST APIs, and PostgreSQL persistence in a 4-person team.
- Developed APIs for brain-dump analysis, Eisenhower Matrix classification, task prioritization, and evening reflection workflows.
- Implemented multi-provider AI fallback (Gemini, Groq, OpenRouter) and mentored teammates on backend architecture.

WasteZero – Smart Waste Recycling Management Platform Jan 2026 – Apr 2026
React, REST APIs | Team of 4 | Infosys Springboard 6.0 (Batch 13)

- Built the React frontend, including authentication, recycling tracking dashboards, user workflows, and responsive interfaces.
- Developed a real-time messaging module and integrated frontend components with backend REST APIs.
- Contributed to backend integration and coordinated full-stack development across a 4-member team.

Civic Issue Reporting System 2025
Flutter, Firebase, YOLOv8, Google Maps API *github.com/jayachandran-jk/Civic-Hero*

- Built a cross-platform mobile application for reporting civic issues through geotagged image uploads.
- Integrated YOLOv8 object detection to classify reported issues and automate categorization.
- Developed an admin dashboard with real-time heatmaps, resolution tracking, and structured issue management.

RESEARCH & PUBLICATIONS

Weaponized AI: The Double-Edged Sword in Modern Cybersecurity 2026
ISEA InfoSecDepot 2026 – MeitY, Government of India (Published)

- Authored a cybersecurity article under the Information Security Education and Awareness (ISEA) initiative.
- Analyzed AI-enabled threats (deepfakes, adaptive malware, spear-phishing) using documented real-world case studies.
- Proposed a layered defense framework combining AI-driven detection, zero-trust architecture, and continuous monitoring.

An Explainable AI Framework for Personalized Medication and Diet Planning 2026
Springer – Manuscript submitted, peer review in progress

- Co-authored research on explainable AI for personalized healthcare using K-Means clustering and Principal Component Analysis (PCA).
- Contributed to experimental design, model evaluation methodology, analysis, and manuscript preparation.

LEADERSHIP

Technical Lead, CodeX Club 2026 – Present
Sri Krishna College of Engineering and Technology

- Lead technical activities, coding initiatives, workshops, and events; coordinate student developers in planning and execution.

Student Council Member 2026 – Present
Sri Krishna College of Engineering and Technology

- Represent student interests in academic and institutional activities, coordinating with students and faculty.

ACHIEVEMENTS

- Finalist, USAII Global AI Hackathon 2026 (among 6,084 teams worldwide).
- Finalist, Odoo Hiring Hackathon 2026 (cleared 8-hour virtual qualifier; advanced to 24-hour final).
- Track Winner (SDG 11) and Top 12 Finalist, SDGthon 2K26, Panimalar Engineering College, Chennai.
- 73rd Global Rank, TRACE Bash Cybersecurity CTF (750+ teams worldwide).
- 1st Place, Engineers' Day Expo (Cybersecurity Department), SKCET.
- 2nd Prize, Coding Contest, PSG College of Engineering and Technology.
- 2nd Prize, Technical Poster Presentation, SKCET.
- Outstanding Student Award, SKCET.
- Top 5, iamneo HackSprint 2.0; Finalist, MSME Ideathon 5.0; College-level Rank 4, Smart India Hackathon 2025; participant, PixForge Design Competition, TECHNOTRONZ '26.
- Attended Amazon ML Summer School 2026.

CERTIFICATIONS

- Cyber Security and Privacy – NPTEL
- Cloud Computing – NPTEL
- Networking Basics – Cisco Networking Academy
- Introduction to Cybersecurity – IBM
- C++ Training – IIT Bombay
- AI for Beginners – HP Foundation
- Multi-Paradigm Programming with Modern C++ – Infosys Springboard
